

Plastic Pollution and You

PLASTIC POLLUTION TRACKING SHEET

Location: _____

Group: _____

Observations: (include weather, land use, presence/lack of garbage cans, etc.)

Map Location	Item(s) Found	Number of Items
A.	Plastic Bottle	2

1. What were the most commonly found items?

2. Where were the most items found? Was there anything specific about that location that might cause there to be more plastic pollution there?

3. What surprised you the most about the plastic pollution you saw in your community?

4. What impacts might this plastic pollution have on humans and the natural environment?

5. What are some ideas for how you or others could help reduce the amount of plastic pollution in your neighborhood, school yard, and/or park?
